New Health Insurance Marketplace Coverage Options and Your Health Coverage

Form Approved
OMB No. 1210-0149
(expires 11-30-2013)

PART A: General Information

When key parts of the health care law take effect in 2014, there will be a new way to buy health insurance: the Health Insurance Marketplace. To assist you as you evaluate options for you and your family, this notice provides some basic information about the new Marketplace and employment-based health coverage offered by your employer.

What is the Health Insurance Marketplace?

The Marketplace is designed to help you find health insurance that meets your needs and fits your budget. The Marketplace offers "one-stop shopping" to find and compare private health insurance options. You may also be eligible for a new kind of tax credit that lowers your monthly premium right away. Open enrollment for health insurance coverage through the Marketplace begins in October 2013 for coverage starting as early as January 1, 2014.

Can I Save Money on my Health Insurance Premiums in the Marketplace?

You may qualify to save money and lower your monthly premium, but only if your employer does not offer coverage, or offers coverage that doesn't meet certain standards. The savings on your premium that you're eligible for depends on your household income.
