## SURVIVAL STRATEGIES EXPLORED

The law firm of Maddin, Hauser, Wartell, Roth, & Heller P.C. conducted a program on "Business Survival Strategies for 2009" on Friday, Jan. 16, at the Sheraton Detroit Novi Hotel. Among those leading the program were firm shareholders (left to right) Chuck Lax and Ron Sollish. "We're going to be dealing with managing your workplace and your workforce and saving expenses with respect to your lease situations, interfacing with your lender, and essentially managing your business so as to solidify the ability to compete in 2009 and move forward into 2010 and better years to come," said Sollish. "Not only will this program emphasize defensive strategies, but we'll also look at opportunities," added Lax. "In this economic environment people are atuned to defensive strategies but there are opportunities out there and we're going to explore some of those also."
